

THE CALLING

- Dr. KirthiKakade
BHMS, MSCP

Forget not to fight back, to never give up or relax.....
The future is waiting with the best it has,
Lurking you to absorb its challenges, to change you to your better and Best.
To make you live an ever growing wealth.
Forget not to dust yourself, just in case you fall back or slip from the stairs.
Climb high, climb slow, but never forget to climb for sure.
Forget not to grow within, brush off the stains both dark and low,
Cleanse yourself and yet be strong, positive enough to stand prolonged.
Forget not to thank thy Lord, for all the gratitude he deserves and longs.
It may be good, supple or scrupulously wrong, for every step you take, is but,
His ultimate wish-to see the unseen and unlearn that is wrong.
Frown not for difficulties may come, as it is a result which you belong.
Succumb not to tides or earthquakes, face your fears and stand strong.
Forget not to smile, for though- you may stumble, but bring glory to all.
Forget not to live for self – only to serve others and stand for Truth
Overall.....
For this is the calling we all belong.
